On today's date R/Sgt was working beat 361 in the 003rd district and responded to an OEMC call of request for supervisor at [REDACTED]. Once on scene R/Sgt spoke to the above complainant who related that while he was using the washroom in his apartment he heard banging at his front door. Complainant alleges that unknown police officers were banging on his door and caused damage to the door. Complainant related that when he opened the door he did not observe anyone in the hallway but as he proceed to main door of his building he observed a M/2 and F/2 police officer walking up and down on the sidewalk and drive off in a "bubble" unmarked car. Complainant is unaware if they were the people banging at his door. R/Sgt observed the door to have a split in the side of the door as well as several dents on the inside. R/Sgt did not observe any large dents on the outside of the door. R/Sgt is unable to determine whether the damage that the complainant is relating to is old damage or new damage. Evidence Technician ordered to photograph door.
